TEAM ENERGY

SEGMENT 1: 10 SECONDS

High-Energy Intro

We are Prismatic — 10 builders solving college cognitive overload.

THE CRISIS

SEGMENT 2: 25 SECONDS

The 300-Student Hook

1 professor. 300 students. 1 static format.
White light has every color, but lectures
project only one shade.

THE CORE MISSION

THE EMOTIONAL TRUTH

Cognitive Mismatch

Students don't freeze from lack of
intelligence; they freeze when raw syllabus
format clashes with their brain.

The 4 Refracted Learning Spectrums: Zero Errors, Pure Retention

A pipelined architecture orchestrated in 60 minutes on Amazon Quick & Amazon Bedrock

METAPHORICAL

Dorm & Dining Hall Metaphors

SPECTRUM 1: ANALOGY

Translates abstract theory into daily campus reality. E.g., Dijkstra's shortest path = navigating peak dining hall line rush.

SCHEMATIC

ASCII & Schematic Blueprints

SPECTRUM 2: VISUAL MAP

Renders execution trees, logical branches, and state machines into structural mental schemas for STEM/CS.

KINESTHETIC

Active Retrieval Partner

SPECTRUM 3: SOCRATIC SPARRING

Chatbot strictly capped at 2 sentences; never lectures; fires progressive edge cases to force active recall.

SYNTHESIS

4-Slide Micro-Presentation

SPECTRUM 4: EXAM TRAP DECK

Exposes the exact trick questions professors test on Midterm #2, coupled with an AI visual memory anchor.

The Unfair Advantage: Why Prismatic Destroys Generic Tools

Who uses this, and why is it exponentially better than everything on the market?

VS. CHATGPT / LLMS

Active Sparring vs. Passive Text

ChatGPT dumps 800-word walls of text that cause immediate student eye glaze. Prismatic bounds answers to 2 sentences and forces active retrieval.

VS. \$80/HR TUTORING

Zero Financial Gatekeeping

Private tutors cost \$80/hr; university office hours are 2 hours a week. Prismatic gives every student 24/7 elite adaptive tutoring for pennies on Bedrock.

VS. STATIC SLIDES

Dynamic Cognitive Fit

Eliminates task paralysis for ADHD, visual, and conceptual learners through a 30-second diagnostic triage.

'With More Time We'd Add...' & The Shark Tank Verdict

Scoring 100% across the 4 official Shark metrics: Creativity, Usefulness, Execution & Teamwork

CREATIVITY

Fresh cognitive refraction metaphor

USEFULNESS

Solves dorm paralysis & exam panic

EXECUTION

6-widget pipeline on Amazon Quick

TEAMWORK

10 teammates with active stage roles

OFFICIAL HANDOUT MANDATE: 'WITH MORE TIME WE'D ADD...'

"With more time, we'd add live Canvas and syllabus LMS integration, automatically syncing weekly exam dates and generating proactive 15-minute micro-sprints before every morning class.

We don't just help students pass exams; we eliminate academic paralysis and unlock confidence."
